December 27, 1985

Dear Harold:

Thank you for your reflective letter about Virginia Durr.

God knows I'm old enough to be interested. And as usual, I learned something from correspondence with you. I had not known that Bull Connor worked for a coal mine. I had not known of Hugh Scott's work on the House Patents Committee. And I did not know about Brien McMahon's early job.

Sincerely,

Ben Bradlee
